

Issuance of a Credential with a Signer Account

1. "New Credential as Signer" Form

To create a Verifiable Credential, click the "**New credential as Signer**" button, at the top right corner of the dashboard page, which will take you to the creation form.

5. See the Issued Credential

You will see that the Credential you just created has a status of **DRAFT**. After the user downloads it with the Wallet, it will have a status of **VALID** (you might have to refresh the page to see it change).
